PROFESSIONAL SUMMARY

Frontend development student at Frontend Simplified building responsive websites with HTML, CSS, and JavaScript. Seeking an entry-level frontend developer role, bringing troubleshooting experience from automotive and facility maintenance, attention to detail, and customer service skills.

TECHNICAL SKILLS

HTML | CSS | JavaScript | Responsive Design | CSS Flexbox | Media Queries | DOM Manipulation

FRONTEND PROJECTS

Treac-Inspired Landing Page | HTML, CSS, JavaScript

- Built a multi-section landing page with six feature cards, three pricing plans, a testimonial section, and a multi-column footer.
- Used Flexbox, reusable CSS styles, and four responsive breakpoints to adapt page layouts for different screen sizes.
- Implemented JavaScript mobile navigation with DOM selection and class toggling; menu links close the navigation when selected.

Library Bookstore Interface | HTML, CSS, JavaScript

- Created a bookstore frontend displaying 12 book cards with cover images, titles, star ratings, and pricing in featured and latest-book sections.
- Built responsive Flexbox layouts that change from four columns to two columns and a single column on smaller screens.
- Added JavaScript-controlled mobile navigation and CSS hover effects for book images and navigation links.

Personal Developer Portfolio | HTML, CSS

- Built a personal portfolio with an introduction, technology showcase, project cards, and links to GitHub, email, and a resume.
- Created CSS entrance animations, hover effects, and project-description overlays with keyboard focus support.
- Adapted typography, spacing, and project cards for tablet and phone screens, keeping project titles and links visible without hovering on phones.

EDUCATION & TRAINING

Frontend Simplified | Frontend Development | In progress

Tooele Technical College | Diploma | 2018-2020

Valley Vista High School | High School Diploma | 2012-2016
